

Please don't let our K-Love station be replaced by an LPFM station. I've been a listener to the station since it first started, and have pledged a small amount for the past year or so because we as a family and community believe in it and enjoy it. As a local community K-Love serves us with a station that is safe for all the family and is uplifting - a refreshing change from the garbage that pollutes the airwaves these days.

If K-Love was displaced it would be like losing a friend. We've come to know and love the presenters and the format. We need nationwide stations like K-Love to bring us all together under the name of God.

Surely it's in the public interest that a Christian station that can be shared in so many places around the USA remain, to help us raise our kids in a caring, loving, safe and informative way?

K-Love would not have been broadcasting for so long with its listeners money, if it was not as popular as it is. Please help us keep this station. Thank you.
